# *This is Life Between Summers*

*Growing up on Cape Cod, the one constant that keeps us going for the one hundred and eighty days of life in between summers are the beaches and warm weather. For some of us summer is about making money to afford life itself. For many others it's about going broke from buying too many concert tickets. And then there are those who live for family time. We reminisce upon the warm summer months we all share together and spend the cold Cape Cod months looking forward to the next summer to come.*

# Riding the wave

The Class of 2009

Smile!

YOU CAN'T RIDE THE GREAT WAVE WITHOUT FIRST LEARNING TO PADDLE, TO STAY AFLOAT, TO TREAD WATER... IT'S A LONG, ARDUOUS TASK TO REACH THAT GREAT WAVE OF SENIOR YEAR. SOME REACH IT WITH EASE, SOME AFTER A LONG STRING OF WIPE OUTS. BUT FOR EACH ONE OF US, RIDING THE WAVE WILL BE THE THE MOST MEMORABLE 180 DAYS OF OUR YOUNG ADULT LIVES, AND BE OVER BEFORE WE KNOW IT, ENDING WITH A CRASH ON

THE SHORE.....

## In Loving Memory...

### We dedicate our yearbook to Lucas Trask

As Luke once said, "I am a raw explosive talent fueled by endless blasts of inspiration!" Though that may not be verbatim, his closest friends would have to agree. Lucas was always up for an adventure, someone who could naturally bring out the fun in most situations. His ever-open mind found humor in very unlikely places. The class of 09 walks forward into our futures alongside a fond memory of Lucas Trask. Our dear multifaceted compadre could be recognized as an exemplary student, a genuine friend, a unique talent, or a compassionate techie. So here is our best attempt at paraphrasing the vital pieces that made up Luke's endlessly deep being.

Luke was beyond "computer-savvy," and would proudly label himself a nerd. He possessed an extremely technologically advanced mind. (As I recall, he was in the process of developing a computer virus that would aid him in taking over the planet). Like DaVinci, Lucas was an artist, a mathematician, and an inventor. He would always have some new theory or invention to share with us and another one in the works. The gears of his mind were always turning, to say the least. His thirst for knowledge was unquenchable. Not only did he read complex literature and controversial books at a young age but Luke also considered himself fluent in German, Latin, and 1337 H4X.

Have you ever met anyone who could perform an expert song on Guitar Hero with the guitar behind his head? In all honesty, few people are as fundamentally talented as Lucas Trask was. As an active member of the BHS Drama Club, he is responsible for first involving some of his friends who turned out to be irreplaceable assets to the stage. Though claims were never verified, he was said to be an expert marksman and archer. He possessed the gift to gab, but whether he was talking about why Tangerine was his favorite Zeppelin song or his latest daunting Dance Dance Revolution score, his quick wit gave his stories an interesting edge. Lucas' fun-loving personality made him the first to suggest a bowl of late-night Frosted Mini-Wheats on multiple occasions.

If there were one thing Lucas would love to be remembered by, it would be his passion and devotion to music. Lucas was an exceptional multi-instrumentalist. He played guitar, keyboard, and was quite a distinguishable singer. He would always be in the process of writing a new original song to play for us, or learning the increasingly more complex guitar solos from all of the classic songs. He surpassed many in skill and creativity when it came to playing his instruments. Some of the most memorable times of our lives may be sharing the stage with Lucas, or watching him perform, whose brilliance as a musician leaves us only to wonder what could have come of his boundless talents.

It would be impossible to capture the essence of Lucas without mentioning his family. He was extremely close with his three brothers and his sister. He spent his summers with his father in Florida, and grew up on his old sailboat, Chat Deau. Living the school year with his mother and younger brother, he was certainly dedicated to being close to his family. The love surrounding his life will never be overlooked.

With an inquisitive mind and a voice mature beyond his years, Lucas Trask will forever be a part of the class of 2009. From his short but genuinely rich life, we can learn a lot about ourselves. Lucas' story is one of success, and Lucas will continue to teach us, though he has passed on. A friend to many, and inspiration to all; Lucas Trask will forever be remembered.

There is this woman, we all know this gal,  
She's the cookie lady and she's our pal!  
We look forward to seeing her every day  
To line up for cookies and slushies when we pay  
Her laugh, and her voice for all to hear,  
Her kindness and love we hold so dear  
She knows all of our faces and most of our names  
She shows up in all places and most of our games  
Well always remember she's so special to us  
If she has no car well seat her on the bus  
When were having a bad day or feeling sad  
She will always say something and make us feel glad!  
Don't be a jerk! she will sometimes say  
Do your homework everyday!  
Count your blessings and always be grateful  
Be nice to each other and never be hateful!  
She's such an inspiration with love for all to feel  
We sometimes wonder, could this lady be for real?  
She rings her cowbell loud and clear  
When we hear this, everyone knows she is near  
The posters she makes mean so much  
It's all the little things, it's just her touch  
She makes our hearts happy and brings us a smile  
She's always forgiving and makes life worthwhile!  
We love you and thank you for just being here  
We'll always remember you and hold you so dear!

After over thirty years of teaching, Mr. Magoun finally retired in December (after threatening us several years before).

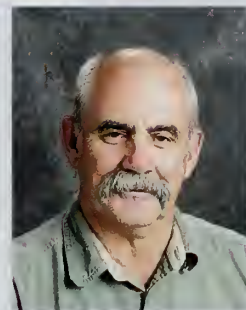

At the close of this school year, Miss Pisapia, Mrs. Timmins, and Mr. Rocco will hang up their hats. Thanks for your years of service to the students of Bourne High School!

# Academics

In between summers, here's where we chart our course and navigate through life's challenges.

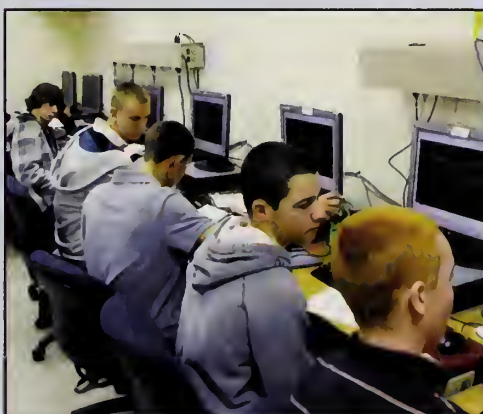

What do academics mean to the students? Many students feel that academics are just a passing of time until summer comes around again. To others, academics are an opportunity to learn more about life, whether in the field of science or about the past in world history. If people take the time to figure out what they like more than school, it will not be a dull experience. Academics are difficult, but in the long run they will pay off.

## Just what is the Nye Grant?

The Grace Swift Nye Fund is an endowment provided to Bourne High School as of 1995.

These monies are utilized to enhance the educational offerings for the high school students. The staff members submit grants describing how they would like to enrich the curriculum through guest speakers, special presentations, field trips, after school programs, teacher development workshops and the purchase of additional materials. It is an inspiring and invaluable program that benefits every student and faculty member at Bourne High School. During the school year, many grants were brought to fruition.

The monies continued to support after school activities such as the After
